Employment History

American Reading Company | Full Stack Developer
Mar 2022 – Current

- Tech Stack: JavaScript, Vue, PHP, Laravel, Go, MySQL, HTML, CSS, Sass, Tailwind, Bootstrap, Twig
- Collaborated with numerous cross-functional teams to transform high-fidelity mockups into pixel-perfect, user-friendly interfaces, ensuring a visually appealing and accessible user experience.
- Implemented and maintained front-end code for web applications using technologies including JavaScript, Vue, Tailwind, and state management libraries, resulting in highly interactive and performant user interfaces.
- Constructed an array of web endpoints using PHP and Laravel to manipulate data (CRUD) and return feedback to the user interface.
- Maintained internal applications utilizing Go + HTMX for enabling other developers and external departments.
- Improved website accessibility by diligently following WCAG guidelines, conducting frequent audits using automated checkers, screen readers, and manual testing. This effort resulted in significantly enhanced user experiences for individuals with disabilities and an impressive 35% increase in accessibility scores.
- Managed code repositories across a diverse range of projects, actively contributing to feature developments and maintenance in multiple frontend, backend and mobile languages, including JavaScript, PHP, Go, MySQL, Swift, and Kotlin.

Freelance Web Developer
June 2022 – Current

- Developed custom, responsive websites for diverse clients using Webflow, integrating intricate design elements and ensuring seamless functionality across multiple devices and browsers.
- Collaborated closely with clients to understand their unique requirements, translating their visions into reality through effective communication, active listening, and a keen eye for detail.
- Demonstrated versatility and adaptability by managing multiple projects simultaneously, prioritizing tasks effectively, and delivering high-quality work with strict deadlines.
- Leveraged problem-solving skills to address complex technical challenges, implementing creative solutions to optimize site performance, enhance user experience, and resolve compatibility issues.
- Cultivated strong client relationships through transparent communication, professionalism

Rebillia | Technical Sales Agent
Jan 2021 – Mar 2022

- Conducted live sales calls and product demos with a 20% closure rate, leading to an average month over month revenue increase of 10%.
- Satisfied trouble support tickets for a roster of over 160 customers, and effectively communicated the problem and solution to individuals of varying technical backgrounds.

● Established the company's online brand by generating and growing social media accounts on over 6
  platforms, strengthening customer relations and brand awareness.
